NATIONAL AND INTERNATIONAL TENDER  
Integrated Urban Surveillance System – Cairo 2026

## 1. Purpose

The Government of the Arab Republic of Egypt hereby launches a national and international tender for the design, supply, installation and operational maintenance of an integrated urban surveillance system covering the New Cairo business district and the Garden City institutional district. The goal is to enhance public security, urban flow management, and inter-agency coordination.

## 2. Scope of Services

The contract shall include full system engineering, deployment of Full HD day/night cameras, secure transmission network, centralized command and control platform, interoperability with police systems, cybersecurity integration, training, and bilingual documentation (English and Arabic).

Operational maintenance (24/7 support,  $\geq 90\%$  availability, critical incident response, quarterly reporting, software updates and cybersecurity upkeep) shall be included for the duration of the contract.

## 3. Areas Covered

Area Surface Population Density

New Cairo 10 km<sup>2</sup> 190,000 19,000 inh./km<sup>2</sup>

Garden City 5 km<sup>2</sup> 95,000 1,300 inh./km<sup>2</sup>

## 4. Minimum Technical Requirements

- Full HD day/night cameras with 30-day recording retention.
- Redundant server architecture and secured data transmission.
- Certified cybersecurity standards and compliance with national regulations.
- Resistance to heat and dust environmental conditions.
- Bilingual user interface (English / Arabic).

## 5. Financial and Contractual Conditions

This is a global contract including supply, installation and operational maintenance. Payments shall be milestone-based. A performance bond shall be required. Strict data confidentiality obligations shall apply. Penalties shall be enforced in case of non-compliance or system unavailability.

## 6. Implementation Timeline

### Phase date

- Project Launch & Contract Effectiveness 15 June 2026
- Detailed Engineering & System Design 15–30 June 2026
- Procurement & Logistics Preparation 1–31 July 2026
- Installation & Infrastructure Deployment 1 August–15 September 2026
- Testing, Commissioning & Training 16–30 September 2026
- Full Operational Deployment 1 October 2026
